

June 27, 2011

Dear GPMC,

As a registered and concerned voter, I am in favor of smart growth initiatives in King County. Please consider the following suggestions when making future growth decisions:

- Prioritize a transportation system that is safe for all users, including pedestrians, transit riders, and cyclists of all ages and abilities;
- Encourage biking and walking as viable forms of transportation; and
- Create livable, transit-oriented communities that provide other options for traveling to school, work, and the grocery store.

Thanks.

Best Regards,

Jon Gunther
